

Dear colleagues,

Thank you for registering for the IATS 2022 Seminar. We will be publishing a preliminary schedule momentarily. Afterwards, the conference programme will be printed.

Before sending the data to the printing house, we'd like to ask you to **check all the information about your submission** one last time. Use this opportunity to ensure there are no typos in your abstracts and, most importantly, **your name and affiliation are displayed correctly**.

First, check your name:

- If you have an official first/middle name and a surname under which you usually publish, simply review the input fields.
- If you publish mainly using a pseudonym, you can use the pseudonym here as well.
- If you are not sure which part of your name is the first name and which is the surname, type all into the "Last Name" field. Since the "First & Middle Name/s" field cannot be left empty, insert an em dash (—) symbol before saving.
- Do not fill in the same name into both fields (unless that's really your name, of course) nor artificially split your name. Also, do not use any of the following examples instead of your real name: FNU, nil, /, --, XXX, X, Unknown.
- Depending on your publishing habits, you can use Latin, Tibetan or Chinese (but do not combine).

Then check all the authors' affiliations in the fields for "Organization(s)".

- Do not repeat organizations, i.e., enter each organization only once.
- The organization fields have index numbers to the left of them. Assign these index numbers to the corresponding authors.
- If an author is affiliated with more than one organization, enter the organizations in separate fields and enter all corresponding index numbers behind the author, separated by commas.
- If all authors belong to the same organization, leave the index empty.

Please note the handy little "Preview List of Authors" section below that shows how authors and organizations will be shown in the programme.
